Klamath Hot Springs,
SISKIYOU CO., CAL.

Is beautifully located on the Klamath River, at the mouth of Shasta Creek, twenty miles from Agate on the Cal. and Oregon R. R. The elevation is two thousand six hundred feet, and the climate is perfect. The Springs have long been celebrated for their healing qualities. There are HOT KELPHUR SPRINGS, IRON

SPRINGS, and the fishing is not equalled at any place.

The scenery and natural surroundings of the place are unsurpassed anywhere. There is a daily stage from the R. R. and private conveyance when desired. It has been recently fitted up at great expense with a new hotel, and the accommodations are all that could be expected at a country resort.
